

Contract Advice & Litigation Support

Many construction disputes could be avoided by proactively identifying potential construction and commercial risks, having appropriate contracts in place and providing rigorous contract monitoring and support.

The APP Approach

APP's Contract Advice and Dispute Resolution team has extensive experience in all forms of dispute resolution. APP uses this knowledge to provide strategic and operational advice targeted at successful project delivery. We can recommend an appropriate procurement mechanism and contract terms that result in efficient contract administration and the avoidance of disputes.

When called upon to provide arbitration or litigation support we introduce rapid and cost effective solutions relevant to the particular circumstances which will secure a speedy and early resolution.

APP offers targeted, knowledgeable advice on a wide range of issues in this area:

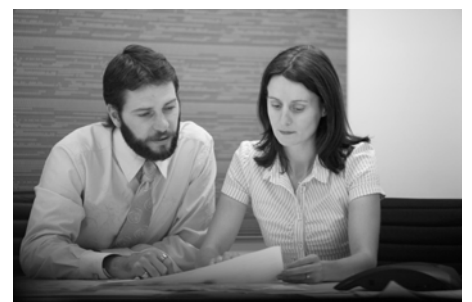

- Procurement Strategy
- Contract Advice
- Contract Audit
- Training
- Claim Management
- Dispute Resolution
- Security of Payment Adjudications
- Arbitration and Litigation Support
- Project Appraisal, Audit and Review

APP has successfully prepared adjudication applications for subcontractors and contractors, and adjudication responses for principals and contractors.

Clients who have engaged APP in the field of Contract Advice include:

- Transport Infrastructure Development Corporation (TIDC)
- NSW Ministry of Transport
- Transfield Services Limited
- BAE Systems
- Energy Australia
- Jemena (formerly Alinta/AGL)
- Sydney Metro

Many organizations today do not have the internal resources to place appropriately qualified personnel in all of the disciplines required on a project. APP can manage your project in totality or place staff, at a moment's notice, to assist on any type of project at any phase. Our professionals take a co-operative, results-driven approach to meeting our clients' goals and effectively complement existing permanent staff.
