

Project Health Check

A Project Health Check is a comprehensive review to assist you in confirming that your project or program is on track to delivering the desired outcomes.

The APP Service:

We can:

- Provide an independent objective review of your project.
- Review project management practices within the organisation to ensure a “no surprise” delivery approach is maintained.
- Review processes and measures to ensure that they are adequate to ensure the required quality of project outcomes.
- Confirm stakeholder engagement and future acceptance of outcomes.
- Identify any risks.

The benefits of a Project Health Check are:

- Reducing the risk of your project failing to deliver desired outcomes.
- Improving the quality of the delivered outcomes.
- Early warning and advice on how to pre-empt or recover a developing situation.
- Assess the readiness of the organisation to accept and support project outcomes.

Sectors/Industries:

- Defence
- Education
- Energy
- Government
- Health Care
- Not For Profit
- Police
- Rail
- Retail

Our People:

APP's Consulting division has a multi-disciplined team of professionals with a wealth of talent and experience in project and program management.

Our consultants and project managers have all gained their expertise in management roles and by successfully implementing projects, across a broad range of private and public organisations and industries.

We are well qualified to help you achieve your goals.
