WA 08 9486 1144

APP was engaged by the Queensland University of Technology in February 2004 as Project Manager for the design and construction of a new multi-storey education, support services & carpark building at the Kelvin Grove Campus.

This major project involves the design, construction and commissioning of a new 500+ space carpark over 4 levels with approximately 5,000m² of office accommodation in a 3 level structure that is located above the carpark and a courtyard/ amphitheatre connecting the new building to the existing Campus forecourt area.

This facility is required to integrate and engage with existing structures and services on the Kelvin Grove Campus and will be delivered within a live site and in a complex multi-stakeholder environment.
