APP's track record in successfully delivering large and complex health projects continues with the appointment to act as Program Manager for the \$210m redevelopment of Gosford and Wyong Health Services.

The role involves full program management from project definition through to hospital commissioning over a 4-year period in a fully operating environment. It will provide new facilities, refurbishment and upgrade of infrastructure.

For Gosford this includes Medical, Palliative Care, Surgical and Paediatric wards, an Intensive Care and Cardio unit, Maternity unit and Perioperative unit containing 10 theatre rooms.

For Wyong Hospital, an existing facility with 156 beds and providing Level 4 services, the upgrade will provide include 3 Medical wards, 2 Surgical wards, a High Dependency unit, Maternity and Rehab units, 6 theatre rooms within the Perioperative unit and expanded Emergency Department.

APP's role of Program Manager, within approved cost, time and quality parameters includes:

- Project management;
- Schematic design and DA documentation;
- Tender documentation, tender administration and evaluation;
- Design development and room data sheets;
- Contract administration, supervision and commissioning;
- Procurement management;
- Risk analysis and mitigation plans.

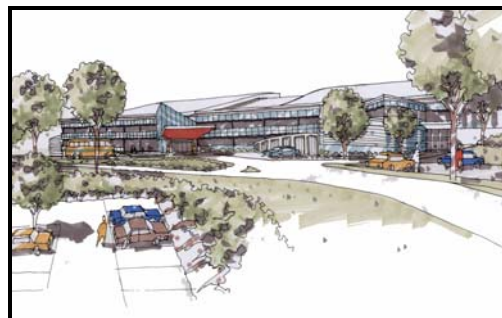

Overall, APP will be responsible for the effective economic design and construction of the project. There will be 8 main work packages, utilising a variety of delivery strategies including Traditional Lump Sum, DD&C and D&C.

The high profile and political sensitivity of delivery on this project requires APP to work closely with the PR and Marketing team.

APP is utilising it's APPACHE/ Workbench system to manage the Cost/Budget reporting and forecasting with its integrated document control system.
